Living arrangements of children: 1960 to present

Source: U.S. Census Bureau, Current Population Survey, March and Annual Social and Economic Supplements, 1968 to 2025. Source of 1960 data: U.S. Census Bureau, 1960 Census of Population, PC(2)-4B, "Persons by Family Characteristics," Tables 1 and 19.

Note: (1) Direct identification of both parents began in 2007, resulting in the ability to identify children living with two unmarried parents. (2) More information on confidentiality protection, methodology, sampling and non-sampling error, and definitions is available at www2.census.gov/programs-surveys/cps/techdocs/cpsmar25.pdf.
